

EURES Svezia Mansione Sweden needs nurses

Sweden needs nurses

Sweden needs a lot of professionals within health care. This time we are especially looking for nurses.

We are part of the Swedish Public Employment Services and are cooperating with many hospitals, regions and county councils in Sweden that want to hire highly qualified registered nurses.

This includes hospitals in the major cities, for example Karolinska University Hospital in Stockholm and Sahlgrenska University Hospital in Gothenburg, but also for institutions in cities and more rural areas such as Region of Norrbotten, Region of Dalarna and many more. You will be directly employed by the hospital or region without any intermediary.

Qualifications

You should

- be an EU-citizen
- be an English speaker
- have an EU approved certification

Proven nursing experience is an advantage

We are looking for someone who is organized and can take initiative in nursing. You have the ability of active listening, to meet the patient's needs and create the opportunity for the patients to get involved in their own care. You take a leading role when the situation demands it, and adept at communicating in meetings with different professionals, patients and relatives. Job responsibilities include identifying patients' needs and acting on them, monitoring vital parameters, providing drugs, preparing patients for examinations and treatments and last but not least providing a compassionate environment for the patients.

Offers

- To start the position you are required to master Swedish corresponding to level C1. For suitable candidates we will provide Swedish classes, in some cases in your home country, followed by more advanced classes upon arrival in Sweden.
- We will help you during the first period with accommodation, you will have a mentor at the hospital and help with practicalities.
- You work full time with 25 days paid holiday
- Starting wages appr. 2 400 – 2 600/month plus supplement for inconvenient working hours
- Continuous in-house training

In Sweden the social welfare system is well-developed. Read more about this and on how the Swedish health care is organized: <https://sweden.se/society/health-care-in-sweden/>

You can apply for financial support through EU Commission.
